**Course Overview:**

It has been 75 years since India gained independence. In the past 75 years, India has progressed in the fields of agriculture, education, industry, health, etc., but even today there has not been such progress in the above various fields, and the health of the youth of the tribal and rural communities of the country has not improved. According to the fact that most of the students studying in our college are from rural areas, these students should be made aware of their health through this course. This case will be used to convince them of the importance of cleanliness and health, diet and exercise. Also, today the number of drug addicts is increasing day by day among the youth, the effect on their personal physical family. The immune system of the youth is decreasing, the level of physical and mental health is increasing, thus considering the various effects on the health of the youth, through this course, awareness about health will be created among the youth.

**Outcomes :**

A value added course was completed by the Department of Sociology. Due to this course, the students of our college have been made aware of health, hygiene, diet, exercise, infectious diseases, and the use of this knowledge has made students aware of health issues.
